Familiar with

- Python
- Java
- C#
- SQL
- HTML
- CSS
- Bootstrap
- Git
- Visual Studio
- Functional Programming
- JavaScript
- MeteorJS
- ASP.NET
- C++
- C
- MATLAB
- Android Development
- WebGL

Courses

- Algorithms
- Machine Learning
- Artificial Intelligence
- Computer Graphics
- Programming Languages
- Concurrent Programming in Rust
- Data Structures
- Human Computer Interaction
- Intro to Computer Systems
- Computer Systems Software
- Discrete Math

Education

Northwestern University
Bachelor of Science in Computer Science
Minor in Economics
GPA: 4.0

Sept 2014 – Dec 2017

Experience

Teaching Assistant at Northwestern University

Sept 2016 – Dec 2016

- TA for EECS 111: Fundamentals of Computer Programming
- TA for EECS 213: Intro to Computer Systems

Application Development Intern at Ford Motor Company

Java

June 2016 – Sept 2016

- Upcoming internship.

Software Engineering Intern at AMPY

Python, MySQL, Java (Android)

Jan 2016 – April 2016

- Part-time internship during school year at startup.
- Implemented a new feature for the AMPY+ Android app that ranks the battery performance users get out of their phone.
- Bug fixes, including one that reduced the size of their current database by over 99%.

Software Engineering Intern at Coilcraft, Inc.

C#, ASP.NET, SQL Server, JavaScript

June 2015 – Sept 2015

- Fully developed four web applications using ASP.NET (C#) and SQL on backend.
- Applications will be used at five locations around the country.

Projects

WildeBot

June 2016

Python, Flask, Heroku

- AI Bot for Facebook Messenger.
- Can play Mancala, Tic Tac Toe, and react to insults/compliments.

Computer Graphics Projects

April 2016

WebGL, JavaScript

- Created animated world in which user can move around to view the moving objects and can adjust lighting and shading methods.

Chat Server

March 2016

Rust

- Created a chat server that allows multiple users to join/create chatrooms and chat with the other connected users.

Spelling Correctors

Jan 2016

Rust

- Implemented two different variations of a spell checker system.

Activities/Awards

- Institute for Electrical and Electronics Engineers (IEEE) Northwestern Student Branch Executive Board Member
 - Worked with another student to create the organization's website (ieee.northwestern.edu)
 - Led group of underclassmen in learning about web development as part of Associate Executive program
 - Helped plan and host events like "BadHacks" hackathon
- Northwestern Associated Student Government Tech Services Committee
- High Honors x6
- Northwestern Men's Club Soccer Team
